Education in Chemistry—Index 1981

SUBJECT

A-level standards, 6
A-level practical, assessment, 82
Acid-base indicators, demonstrations, 16
Aids to learning, underlining, 14
Alkenes, hydration of, 78
ASE, 2
Assessment of A-level practicals, 82
Assessment group, 68
Association for Sandwich Education and Training, 66
Atoms, evidence for, 74
Attainment standards, 6
Audiovisual materials, 35

Books
Analytical chemistry, 85, 92, 127, 187
Biochemistry, 86, 88, 126, 127, 186
spectroscopy for, 185
Biological chemistry, 185
Catalysis, 88, 125
Chemical industry, 124
Cognitive development, 90
Computer programs, 31
Computers, 155
Electrochemistry, 154
Environmental science, 29, 90, 124, 127
Food chemistry, 186
General chemistry texts, 28, 29, 30, 85, 125, 152, 155, 185
Inorganic chemistry, 30
Mathematics, 124
Modelling, 29
NMR spectra, 60
Organic chemistry, 24, 86, 88, 90, 92, 126, 154
Philosophy of science, 124
Photoelectrochemistry, 85
Physical chemistry, 86
Pollution, 124
Polymers, 92, 185, 186
Process technology, 60
Radiation, 127
Radioactivity, 185
Radiochemistry, 186
Reaction kinetics, 29
Safety, 92, 185
Science and society, 90
Science at work, 60
Sex bias, 152
Spectroscopy, 90, 156
for biochemistry, 124
Structure and bonding, 85
Systematic separation, 28
Teacher training, 156
Teaching aids, 187
Technician education, 60, 92
Tunnel effect, 28
Visual aids, 185
British Association meeting 1981, 163
Bromine production in Palestine, 116

CAL, 4, 9, 67, 99, 104, 107, 131
Cancer drugs, 166
Careers special issue, 135–144
Cellulose membranes, 176
Chemical education, 162
Chemical engineering, careers, 137
Chemicals in chemotherapy, 166
Chemistry and management science courses, 145
Chemistry teaching, 3, 169
France, 24
international, 162
Chemotherapy, 166
Civil Service, careers, 138
Computer assisted learning, 4, 9, 67, 99, 104, 107, 131
Copper(II) complexes, 176
Core syllabus, 5, 69, 101
Crystallography, 180

Degree of reaction, 146
Demonstrations, 16
Diffraction or reflection, 180
Distillation, efficiency of, 54

Electronic blackboard, 131
Energy, 98
Environment, 98
Examinations 16–18, 3
Exidy Sorcerer, review, 107
Extent of reaction, 146

Field courses, 42
Film Prize, RSC, 121
Further education, 132, 162

Gelatin, isoelectric point of, 103
Gibbs free energy, 172
Girls and science, 37

Health and safety executive, 100
Heaney, J., interview, 2
Higher education, 100
funding, 130
Hydrolysis, 110

I-level examinations, 3
Industrial chemistry, careers, 135
Industry, pupil attitudes to, 164
In-service courses, 36
Instant alcohol, 68
Ionic equilibria, 104
Iron, complexation with extract of oak gall, 80
Isoelectric point of gelatin, 103

Laboratory remodelling, 132
Link scheme, 34

Maryland conference, 162
Mathematics and chemistry, 48
Mechanisms, 110
Metal complexes, in chemotherapy, 169
diffusion through cellulose membranes, 12
Microcomputers, 4, 67, 99, 107
displaying formulae on, 15, 101, 107
Molecules, evidence for, 74
MUSE, 4

Non-chemical careers, 140
Nuffield chemistry, 112, 169
revised, 44
in Italy, 71

Oak galls, 80
Olympiads, 130
Open University, 162
TV guide, 22

Periodic table, memorising, 179
Polymers, simulation, 149
Probability and free energy, 172
Purity of product, 20

Reaction kinetics, 52, 134

St Bartholemews Hospital, 3
Sandwich courses, 66
School Curriculum, The, 98
Schools Council, 163
Schools/industry link scheme, 34
Schweizer's reagent, 176
Science in Society, 66
Science, technology and society, 35
Scientific method, 169
SCUE/CNAA core syllabus, 5, 69, 101
Sex bias in text books, 18
SIFT, 56, 118, 182
Spectroscopic techniques, 20
Statistics of chemical education, 142
Strontian, 76
Strontium, 76
STSA, 35

Teaching as a career, 141
Technician education, 132
Television in teaching, 40
Thermal decomposition, 38
Thermal equilibrium, 165
Thermochemistry, 79
Third world aid, 132
Thompson, J. J., interview, 2
Titrimetric calculations, 10
Transesterification, 110
Transition elements, 165

UGC grants, 130
Underlining, 14
University of the Third Age, 164

Volumetric concepts, 114, 164

Water science, 100

X-ray diffraction, 180

AUTHOR

Aylmer-Kelly, A. W. B., 36

Baxter, I., 140
Beezer, A. E., 104
Bick, I. R. C., 54
Blackman, A. J., 54
Borrows, P., 5
Britton, G. C., 76
Browne, E. J., 54
Bullock, D., 14

Cameron, R. M., 179
Cervellati, R., 71
Clementson, B., 76

Dawson, B. E., 44, 112
Doherty, A. M. M., 82
Downward, M. J., 172
Dyson, R. W., 149

Ferguson, L. N., 166
Ferri, R., 71
Fothergill, K. A., 76
Fraser, G. A., 10

Gadd, K. F., 12, 176
Garforth, F., 141
Golding, B. T., 110
Gomel, M., 24
Griffiths, J. G., 132
Groves, P., 107
Guy, J. J., 180

Holliday, A. K., 6
Hudson, M. J., 44

Ingle, R. B., 48

Jenkins, E., 37

Kirby, G. H., 15

Lazonby, J. N., 36
